Retraction of:

**Cerebrospinal fluid monoamine metabolites
in Huntington dementia, movement disorders,
and normal aging**

Stephen M. Stahl, MD, PhD
Kym F. Faull, PhD
Jack D. Barchas, MD
Philip A. Berger, MD

From the Mental Health Clinical Research Center,
Stanford University,
and the Palo Alto Veterans Administration Hospital

Presented at the 35th Annual Meeting
of the American Academy of Neurology,
San Diego, California, April 1983.

Published as an Abstract in **Neurology** 1983;33(Suppl 2):218

Note from the Editor-in-Chief:

The retraction of this abstract follows the report of the Panel to Investigate Possible Misconduct in Science under Grant MH-30854 (Stanford University Mental Health Clinical Research Center) to the Deputy Director of the National Institute of Mental Health. The Panel deemed the reported results *invalid* because of methodological and procedural flaws in the study.

The form of this retraction complies with the recommendations of the International Committee of Medical Journal Editors (*Annals of Internal Medicine* 1988;108:304.)
