Cover Image
Feature visualization of differences between patients with left temporal lobe epilepsy and right temporal lobe epilepsy. Left image shows average GradCAM map of patients across convolutional neural network models and right image shows voxel-based morphometry analysis. Stylized by Kaitlyn Aman Ramm, Senior Digital Multimedia/Graphics Coordinator.

Editorials
97 Finding the Determinants of Disease Severity in Facioscapulohumeral Muscular Dystrophy
R. Tawil

Research Articles: Short Format
Full articles at Neurology.org/N

100 Association of 4qA-Specific Distal D4Z4 Hypomethylation With Disease Severity and Progression in Facioscapulohumeral Muscular Dystrophy
OPEN ACCESS CME Course Editorial, p. 97

102 Efficacy and Safety of Elamipretide in Individuals With Primary Mitochondrial Myopathy: The MMPOWER-3 Randomized Clinical Trial
OPEN ACCESS Class of Evidence

104 Association of Procedure Time With Clinical and Procedural Outcome in Patients With Basilar Occlusion Undergoing Embolectomy

106 Scoping Review of Racial, Ethnic, and Sex Disparities in the Diagnosis and Management of Hemorrhagic Stroke
L. Kalasapudi, S. Williamson, A.G. Shipper, M. Motta, C. Ensenwa, F.O. Otite, S. Chaturvedi, and N.A. Morris
CME Course

108 Association of Chronic Kidney Disease With Plasma NfL and Other Biomarkers of Neurodegeneration: The H70 Birth Cohort Study in Gothenburg
OPEN ACCESS

110 Clinicoradiologic and Neuropathologic Evaluation of Corticobasal Syndrome

112 Association of Cortical and Subcortical Microstructure With Clinical Progression and Fluid Biomarkers in Patients With Parkinson Disease

114 Association of Cortical Gyrification With Imaging and Serum Biomarkers in Patients With Parkinson Disease
Y. Zhang, Y. Zhang, C. Mao, Z. Jiang, G. Fan, E. Wang, Y. Chen, and L. Palaniyappan

116 Convolutional Neural Network Algorithm to Determine Lateralization of Seizure Onset in Patients With Epilepsy: A Proof-of-Principle Study
Class of Evidence

Basic Science in the Clinic
118 What Is the Role of the Intralaminar Thalamic Input to the Striatum and Its Potential Implications in Parkinson Disease?
E. Benarroch

Invited Articles
124 New Therapeutic Approaches to Inherited Metabolic Pediatric Epilepsies
P.L. Pearl, I. Tokatly Latzer, H.H.C. Lee, and A. Rotenberg
Continued
Contemporary Issues in Practice, Education, & Research

134 Must Hypothalamic Neurosecretory Function Cease for Brain Death Determination? Yes: The UDDA Revision Series
M. Nair-Collins

137 Must Hypothalamic Neurosecretory Function Cease for Brain Death Determination? No: The UDDA Revision Series
P.N. Varelas

Resident & Fellow Section

140 Clinical Reasoning: Woman With Acute Bilateral Ophthalmoplegia
A. Giacobbe, M. Ravishankar, and L. Doherty

Clinical Reasoning: Acute Monocular Vision Loss in a Patient With Ipsilateral Extracranial Chronic Internal Carotid Artery Occlusion
A. Agrawal, S.M. Lazzarin, D. Ajello, N. Baronetto, E. Civitini, S. Marcheselli, and U. Pensato

Teaching NeuroImage: Cerebellar Atrophy Due to JC Virus Granule Cell Neuronopathy: A Clinical Syndrome Distinct From Classic PML
C. Silva-Rosas, G. Abudínén, A. Quijada-Riquelme, and H. Angus-Leppan

Teaching NeuroImage: Presence of a Human Tail in an Infant With Spinal Dysraphism and Congenital Clubfeet
A.F.V.M. Silva and L.C. Araújo

Disputes & Debates: Editors’ Choice

145 Editors’ Note: A Focus on Subtle Signs and Motor Behavior to Unveil Awareness in Unresponsive Brain-Impaired Patients: The Importance of Being Clinical
J.E. Siegler and S. Galetta

Reader Response: A Focus on Subtle Signs and Motor Behavior to Unveil Awareness in Unresponsive Brain-Impaired Patients: The Importance of Being Clinical
C. Machado

Author Response: A Focus on Subtle Signs and Motor Behavior to Unveil Awareness in Unresponsive Brain-Impaired Patients: The Importance of Being Clinical
J.A. Meyer, J. Jöhr, and K. Diserens

Correction & Replacements

147 Domino Liver Transplantation (DLT) and De Novo Familial Amyloid Polyneuropathy (FAP): The Portuguese Experience (S58.004)

Survey of Investigators About Sharing Human Research Data in the Neurosciences
