EDITORIAL

The ARX story: A new twist
Cecil D. Hahn

Ictal asystole and SUDEP
Norman K. So and Michael R. Sperling

Smooth mosaics: Genotype and phenotype in lissencephaly
Hans H. Jung

ARTICLES

Expansion of the first PolyA tract of ARX causes infantile spasms and status dystonicus

Video-electrographic and clinical features in patients with ictal asystole

Location and type of mutation in the LIS1 gene do not predict phenotypic severity

Galantamine treatment of vascular dementia: A randomized trial
A.P. Auchus, H.R. Brashear, S. Salloway, A.D. Korczyn, P.P. De Deyn, and C. Gassmann-Mayer, for the GAL-INT-26 Study Group

HISTORICAL NEUROLOGY

A new look at James Parkinson’s Essay on the Shaking Palsy
P.A. Kempster, B. Hurwitz, and A.J. Lees

CLINICAL/SCIENTIFIC NOTES

Benign long-term outcome of conservatively treated cervical aneurysms due to carotid dissection

Donepezil preserves cognition and global function in patients with severe Alzheimer disease
S.E. Black, R. Doody, H. Li, T. McRae, K.M. Jambor, Y. Xu, Y. Sun, C.A. Perdomo, and S. Richardson

Impact of cognitive reserve on the relationship of lead exposure and neurobehavioral performance
M.L. Bleecker, D.P. Ford, M.A. Celi, C.G. Vaughan, and K.N. Lindgren

The clinical challenge of recognizing infratentorial empyema
D. van de Beek, N.G. Campeau, and E.F.M. Wijdicks

Brain spect perfusion of frontotemporal dementia associated with motor neuron disease

Clinical and anatomic characteristics of humming and singing in partial seizures
F. Bartolomei, A. McGonigal, M. Guye, E. Guedj, and P. Chauvel

Ischemic bilateral hippocampal dysfunction during transient global amnesia
Massimiliano Di Filippo and Paolo Calabresi

Can patients with epilepsy predict their seizures?
To the Editor: Marco Mula and Francesco Monaco.
Reply from the Authors: S.R. Haut, C.B. Hall, A.J. LeValley, and R.B. Lipton

Encephalopathy, stroke, and myocardial infarction with DMSO use in stem cell transplantation
To the Editor: Heikki Savolainen. Reply from the Authors: A.S. Chen-Plotkin, K.A. Vossel, M.A. Samuels, and M. Hui Chen

The impact of litigation on neurologic research
To the Editor: Nathan A. Schachtman. Reply from the Authors: B.A. Racette, A. Bradley, C.A. Wrisberg, and J.S. Perlmutter

Neurology Online CME Program
Earn CME while reading Neurology. This program is available only to online Neurology subscribers. Simply read the articles marked CME, go to www.neurology.org, and click on CME. This will provide all of the information necessary to get started. The American Academy of Neurology (AAN) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor continuing medical education for physicians. Neurology is planned and produced in accordance with the ACCME Essentials. For more information, contact AAN Member Services at 800-879-1960.
