In the evidence-based guideline “Treatment of tardive syndromes: Report of the Guideline Development Subcommittee of the American Academy of Neurology” by R. Bhidayasiri et al. (*Neurology*® 2013;81:463–469), there was an error in table e-1; the corrected version was posted with the article on September 4, 2013. In addition, 2 studies were inadvertently excluded from the literature search (and thus from the guideline). The following references should have been cited. The authors regret the errors.
