Volume 101, Number 17, October 24, 2023

Neurology.org/N

Editorials

731 Cutting Through the Noise of Risk Factors Associated With Frequent Headache
K. Sully

733 The Potential to Inform Statin Use in Multiple Sclerosis Through Human Genetics
A. Buyukkurt and A. Harroud

Research Articles: Short Format

Full articles at Neurology.org/N

736 Association Between Peer Victimization, Gender Diversity, Mental Health, and Recurrent Headaches in Adolescents: A Canadian Population-Based Study
C. Nilles, J.V.A. Williams, S. Patten, T. Pringsheim, and S.L. Orr

738 The CADA-MRIT: An MRI Inventory Tool for Evaluating Cerebral Lesions in CADASIL Across Cohorts

740 Investigating Neurologic Improvement After IV Thrombolysis: The Effect of Time From Stroke Onset vs Imaging-Based Tissue Clock

CME Course

Clinical/Scientific Notes

741 Association of MTHFR Polymorphisms With Leukoencephalopathy Risk in Patients With Primary CNS Lymphoma Treated With Methotrexate-Based Regimens

CME Course

Contemporary Issues in Practice, Education, & Research

752 Identifying Effective Treatments for Dystonia in Patients With Cerebral Palsy: A Precision Therapeutics Approach
R. Gelineau-Morel, C. Smyser, and J.S. Leeder

Cover Image

Illustration of the brain segmented into regions of interest, with functional or structural connectivity expressed as a weighted measure between each pair of nodes from a study of effective treatments for dystonia in patients with cerebral palsy. Stylized by Kaitlyn Aman Ramm, Senior Digital Multimedia/Graphics Coordinator. See page 752

A Letter From a Wise Man With Parkinson Disease
G.L. Franklin

Patient With the Posterior Variant of Alzheimer Disease Plays Table Tennis: Blindsight and Ping-Pong
A. Haddad, G. Brunel, S. Indart, and C. Paquet

Stereotypies in a Patient With Wilson Disease

Jaw-Opening Dystonia Associated With Spinocerebellar Ataxia Type 48
G.S. Froehner, G.L. Franklin, A.T. Meira, and H.A.G. Teive

Teaching NeuroImage: Branching Dura Mater in Primary CNS ALK-Positive Anaplastic Large Cell Lymphoma
W. Rattanawong, A. Tekarnjnavanit, C. Marukatat, P. Hemachudha, T. Pongpitakmetha, and P. Anukoolwittaya

Clinical Reasoning: A 48-Year-Old Man With Spasticity and Progressive Ataxia

Clinical Reasoning: A 74-Year-Old Woman Presenting With Monocular Ptosis and Binocular Diplopia

Teaching Video NeuroImage: Inverted Patellar Reflex Localizes the Site of Spinal Epidural Arteriovenous Fistula
E. Schipani Bailey, C.Y. Itoh, G. Lanzino, J. Klaas, and M.V. Pinto

Editors’ Note: Teaching Neurolmage: Partially Reversible Widespread Leukoencephalopathy Associated With Atypical Hemolytic Uremic Syndrome
A. Lewis and S. Galetta

Reader Response: Teaching Neurolmage: Partially Reversible Widespread Leukoencephalopathy Associated With Atypical Hemolytic Uremic Syndrome
J. Graber

Author Response: Teaching Neurolmage: Partially Reversible Widespread Leukoencephalopathy Associated With Atypical Hemolytic Uremic Syndrome
M. Foschi, I. Cani, P. Cenni, and M. Righini
