The Editor-in-Chief, with advice from members of the Editorial Board, reviews requests for publication of symposia on topics of interest to readers of *Neurology*. The decision to publish a symposium as a supplement to *Neurology* is based on the topic, the supplement editors, and the contributors. Once a decision is made to publish a symposium as a supplement, it is not peer reviewed by the Editorial Board of *Neurology*. The individual authors are responsible for their own contributions, and the supplement editors are responsible for the overall quality of the supplement.
