### CORRECTION

#### Increased diffusivity in acute multiple sclerosis lesions predicts risk of black hole

In the article “Increased diffusivity in acute multiple sclerosis lesions predicts risk of black hole” by R.T. Naismith et al. (*Neurology*® 2010;74:1694–1701), the authors inadvertently omitted a grant acknowledgment: NIH P01 NS059560 to A.H.C. The authors regret the error.

### CORRECTION

#### Evidence-based guideline: The role of diffusion and perfusion MRI for the diagnosis of acute ischemic stroke: Report of the Therapeutics and Technology Assessment Subcommittee of the American Academy of Neurology

In the byline of the article “Evidence-based guideline: The role of diffusion and perfusion MRI for the diagnosis of acute ischemic stroke: Report of the Therapeutics and Technology Assessment Subcommittee of the American Academy of Neurology” by Schellinger et al. (*Neurology*® 2010;75:177–185), Dr. Schellinger’s degree should have been listed as “MD.” The authors regret the error.
