CORRECTION

Value of patient-reported symptoms in the diagnosis of transient loss of consciousness

In the article "Value of patient-reported symptoms in the diagnosis of transient loss of consciousness" by M. Reuber et al.,¹ there are errors in the figure. The syncope and epilepsy labels were switched and in addition, item 3 should read "Sight of blood" rather than "Site of blood" as originally published. The corrected figure is below. The authors regret the errors.
