Aerobic exercise improves cognition and cerebrovascular regulation in older adults

Neurology® 2020;95:890. doi:10.1212/WNL.0000000000010637

In the article “Aerobic exercise improves cognition and cerebrovascular regulation in older adults” by Guadagni et al.,¹ the tests mentioned should read “Card Sorting Test” and “Color-Word Interference Test.” The authors regret the errors.

Clinical and neural responses to cognitive behavioral therapy for functional tremor

Neurology® 2020;95:890. doi:10.1212/WNL.0000000000010608

In the article “Clinical and neural responses to cognitive behavioral therapy for functional tremor” by Espay et al.,¹ the final data point in figure 4 for HAM-D correlation should be 0.81, higher than originally reported. This change does not alter the interpretation of the analysis. The authors regret the error.

Ictal quantitative surface electromyography correlates with postictal EEG suppression

Neurology® 2020;95:890. doi:10.1212/WNL.0000000000010638

In the article “Ictal quantitative surface electromyography correlates with postictal EEG suppression” by Arbune et al.,¹ reference 12 should be “Bateman LM, Mendiratta A, Liou JY, et al. Postictal clinical and electroencephalographic activity following intracranially recorded bilateral tonic-clonic seizures. *Epilepsia* 2019;60:74–84.” The authors regret the error.
