### For better migraine treatment, try adding some downward dogs

Adding yoga to your regularly prescribed migraine treatment may be better than medication alone. The new research suggests yoga may help people with migraines have headaches that happen less often, do not last as long, and are less painful. “Migraine is one of the most common headache disorders, but only about half the people taking medication for it get real relief,” said study author Rohit Bhatia, M.D., D.M., D.N.B., of the All India Institute of Medical Sciences in New Delhi, India, and a member of the American Academy of Neurology. “The good news is that practicing something as simple and accessible as yoga may help much more than medications alone. And all you need is a mat.”

Effect of yoga as add-on therapy in migraine (CONTAIN): A randomized clinical trial [doi.org/10.1212/WNL.00000000000009473](https://doi.org/10.1212/WNL.00000000000009473)
