**Figure** T2-Weighted Imaging Showing Medulla Oblongata Being Deformed Into a Cloverleaf Shape

(A) Crowding of the cervicomedullary junction consistent with (B) a mild Chiari malformation (arrow) (note the thickness of the corpus callosum and partial empty sella) and (C) the bilateral vertebral arteries aberrantly entering the spinal canal below the atlas (red arrows).

A 48-year-old woman developed progressive right lower extremity numbness and lancinating pain of right pharynx. T2-weighted MRI revealed a flow-void area that corresponded to the both aberrant vertebral arteries (persistent first intersegmental arteries) severely compressing and distorting the medulla oblongata and tonsillar herniation consistent with a mild Chiari malformation. Mild hydrocephalus was also noted with thinning of the corpus callosum and partial empty sella (figure).

Congestion at occipitocervical junction caused by bilateral vertebral artery compression may be related to Chiari malformation formation. This is an uncommon case of neurovascular compression,<sup>1</sup> characterized by hemianesthesia, variant glossopharyngeal neuralgia, and Chiari malformation.<sup>2</sup>

## Acknowledgment

The authors thank Fei Qiao, MD, and Xinxin Fan, MD for help with data collection.

## Study Funding

No targeted funding reported.

## Disclosure

The authors report no disclosures relevant to the manuscript. Go to [Neurology.org/N](https://www.neurology.org/N) for full disclosures.

From the Peking University Shenzhen Hospital (Z.H.); School of Medical Technology and Nursing (Y.D.), Shenzhen Polytechnic; and Xuanwu Hospital of Capital Medical University (P.H., H.Z.), China.

Go to [Neurology.org/N](https://www.neurology.org/N) for full disclosures.

## Online Learning for Everyone

No matter your career stage, interest, or learning style, the AAN has a wide variety of convenient online CME, self-assessment, and other learning activities to suit your needs. From bite-sized learning opportunities to self-assessment programs, help preparing you for the boards or continuing certification, or on-demand access to popular AAN conferences, the AAN has you covered. Visit [AAN.com/Learn](http://AAN.com/Learn) today.

## Neurology® Online CME Program

Earn CME while reading *Neurology*. This program is available only to online *Neurology* subscribers. Read the articles marked CME, go to [Neurology.org](http://Neurology.org), and click on CME. This will provide all of the information necessary to get started. The American Academy of Neurology (AAN) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor continuing medical education for physicians. *Neurology* is planned and produced in accordance with the ACCME Essentials. For more information, contact AAN Member Services at 800-879-1960.

## Announcing...

### Child Neurology: A Case-Based Approach Cases from the Neurology® Resident & Fellow Section

This collaboration between the American Academy of Neurology (AAN) and the Child Neurology Society (CNS) represents a collection of reprinted cases from the past 15 years from the Neurology Resident & Fellow Section.

An invaluable resource for both adult and pediatric neurologists and trainees! FREE download: [Npub.org/cnbook](http://Npub.org/cnbook)
