TABLE OF CONTENTS

Volume 96, Number 17, April 27, 2021

Neurology.org/N

In Focus
777 Spotlight on the April 27 Issue
778 This Week’s Neurology® Podcast

Editorials
779 Lateropulsion: An Overlooked Driver of Balance and Gait Deficits in Stroke?
J. Gomes-Osman and A. Kloos
781 White Matter Hyperintensities: How Much (and What Shape) Is Too Much?
N. Yassi and B.C.V. Campbell
783 The Benign Course of PLS: A Strong Point in Favor of an Earlier Differentiation From ALS
F. Agosta and M. Filippi

In Memoriam
785 Manfred D. Muenter, MD (1934–2021)
J.E. Ahliskog, C.H. Adler, and R.J. Uitti

Articles: Short Format
Full articles at Neurology.org/N
787 Balance, Lateropulsion, and Gait Disorders in Subacute Stroke
S. Dai, C. Piscicelli, E. Clarac, M. Baciu, M. Hommel, and D. Pérennou
Editorial, p. 779
788 Lateropulsion After Hemispheric Stroke: A Form of Spatial Neglect Involving Graviception
S. Dai, C. Piscicelli, E. Clarac, M. Baciu, M. Hommel, and D. Pérennou
Video

Ahead of Print Articles and Editorials

789 Association of White Matter Hyperintensity Markers on MRI and Long-term Risk of Mortality and Ischemic Stroke: The SMART-MR Study
R. Ghaznawi, M.J. Geerlings, M. Jaarsma-Coes, J. Hendrikse, and J. de Bresser, on behalf of the UCC-Smart Study Group
Editorial, p. 781 Open Access Article
790 Risk and Predictors of Depression Following Acute Ischemic Stroke in the Elderly
N. Mayman, L.K. Stein, J. Erdman, A. Kornspun, S. Tuhrim, N. Jette, and M.S. Dhamoon
CME Course
791 Baseline Blood-Brain Barrier Leakage and Longitudinal Microstructural Tissue Damage in the Periphery of White Matter Hyperintensities
Open Access Article
792 Amyloid Positivity in the Alzheimer/Subcortical-Vascular Spectrum
793 Cardiovascular Risk Factors Across the Life Course and Cognitive Decline: A Pooled Cohort Study
K. Yaffe, E. Vittinghoff, T. Hoang, K. Matthews, S.H. Golden, and A.Z. Al Hazzouri
794 Long-term Effects of Cholinesterase Inhibitors on Cognitive Decline and Mortality
H. Xu, S. Garcia-Placek, L. Jönsson, A. Wimo, P. Nordström, and M. Eriksdotter
Open Access Article Class of Evidence Podcast Patient Page
795 Natural History of “Pure” Primary Lateral Sclerosis
CME Course Editorial, p. 783

What’s Happening
796 What’s Happening in Neurology® Clinical Practice
797 What’s Happening in Neurology® Genetics
798 What’s Happening in Neurology® Neuroimmunology & Neuroinflammation

Contemporary Issues
799 New Ethical and Clinical Challenges in “Closed-Loop” Neuromodulation
M. Hegde, W. Chiong, and V.R. Rao

Continued
## TABLE OF CONTENTS

### Views & Reviews

- 805 Incidence and Prevalence of Drug-Resistant Epilepsy: A Systematic Review and Meta-analysis

### Disputes & Debates: Editors’ Choice

- 825 Editors’ Note: Determination of Death by Neurologic Criteria Around the World
  - A. Ganesh and S. Galetta

### Resident & Fellow Section

- 818 Resident & Fellow Rounds
  - R.E. Strowd III and W. Aamodt

### Education Research: Neurology Resident EEG Education: A Survey of US Neurology Residency Program Directors

- F.A. Nascimento and J.R. Gavvala

### Pearls & Oysters: Nonmotor Seizures as Presenting Feature of Hodgkin Lymphoma CNS Involvement

### Teaching Video NeuroImages: Cluster Breathing in Brainstem-Sparing Bihemispheric Cerebral and Cerebellar Lesions

- R.M. Meza, H. Schulz, D. Alva, and A.J. Espay

### Teaching Video NeuroImages: Paroxysmal Dysarthria-Ataxia in Multiple Sclerosis

- S. Shah, B.T. Klassen, and E.P. Flanagan

### Corrections

- 828 Stroke Reperfusion Therapy Following Dabigatran Reversal With Idarucizumab in a National Cohort

- 828 Leisure Activity Participation and Risk of Dementia: An 18-Year Follow-up of the Whitehall II Study

### Retraction

- 828 An Alternative to Vitamin D Supplementation to Prevent Fractures in Patients with MS

### Department

- In the Next Issue of Neurology®

## Subspecialty Alerts by E-mail!

Customize your online journal experience by signing up for e-mail alerts related to your subspecialty or area of interest. Access this free service by clicking on the "My Alerts" link on the home page. An extensive list of subspecialties, methods, and study design choices will be available for you to choose from—allowing you priority alerts to cutting-edge research in your field!
