Volume 96, Number 7, February 16, 2021

TABLE OF CONTENTS

Editorials
297 What Can Longitudinal Observational Studies of Physical Activity Teach Us About Prevention of Dementia?
N.L. Spartano and L. Pantoni

299 Alzheimer Disease Spectrum: Syndrome and Etiology From Clinical and PET Imaging Perspectives
D.S. Knopman and W.J. Jagust

301 Mesenchymal Stem Cells for Ischemic Stroke: Hope or Hype?
L. Roever and G.C. Jickling

Articles: Short Format
303 Prospective Analysis of Leisure-Time Physical Activity in Midlife and Beyond and Brain Damage on MRI in Older Adults

304 Frequency of Biologically Defined Alzheimer Disease in Relation to Age, Sex, APOE e4, and Cognitive Impairment

305 CT-Visible Convexity Subarachnoid Hemorrhage is Associated With Cortical Superficial Siderosis and Predicts Recurrent ICH

306 Long-Term Vascular Outcomes in Patients With Mixed Location Intracerebral Hemorrhage and Microbleeds

307 Prevalence of Cervical Artery Dissection Among Hospitalized Patients With Stroke by Age in a Nationally Representative Sample From the United States

308 Efficacy and Safety of Intravenous Mesenchymal Stem Cells for Ischemic Stroke

309 The STARS Phase 2 Study: A Randomized Controlled Trial of Gaboxadol in Angelman Syndrome

310 Association of GBA Genotype With Motor and Functional Decline in Patients With Newly Diagnosed Parkinson Disease

311 Population-Based Prevalence of Myotonic Dystrophy Type 1 Using Genetic Analysis of Statewide Blood Screening Program

312 CLIA Laboratory Testing for Facioscapulohumeral Dystrophy: A Retrospective Analysis
A. Rieken, A.D. Bossler, K.D. Mathews, and S.A. Moore

Cover Image
Changes in the locations of high-frequency activity and spikes in a patient with drug-resistant focal epilepsy. Stylized by Kaitlyn Aman Ramm, Digital Multimedia/Graphics Coordinator. See page 314

Ahead of Print Articles and Editorials
NPub.org/aheadofprint

Continued
313 Risk of Venous Thromboembolism in Grade II-IV Gliomas as a Function of Molecular Subtype
M. Diaz, J. Jo, M. Smolkin, S. Jane Ratcliffe, and D. Schiff

CME Course

314 Spatiotemporal Patterns of High-Frequency Activity (80–170 Hz) in Long-Term Intracranial EEG

Null Hypothesis

315 Absence of GluD2 Antibodies in Patients With Opsoclonus-Myoclonus Syndrome
M. Petit-Pedrol, M. Guasp, T. Armangue, C. Lavarrino, A. Morales La Madrid, A. Saiz, F. Graus, and J. Dalmau

What’s Happening

316 What’s Happening in Neurology®

317 What’s Happening in Neurology® Genetics

Basic Science in the Clinic

318 What Is the Mechanism of Therapeutic and Adverse Effects of Gabapentinoids?
E.E. Benarroch

Historical Neurology

322 Henry R. Viets, MD, and the History of Myasthenia Gravis
R.M. Feibel

Views & Reviews

327 7Tm Epilepsy Task Force Consensus Recommendations on the Use of 7T MRI in Clinical Practice

Neuromages

342 Carotid Artery Stenosis in a Young Asymptomatic Patient: The Value of Multimodal Cross-Sectional Imaging

Resident & Fellow Section

343 Clinical Reasoning: A 63-Year-Old Woman Presenting With Bilateral Leg Pain
J. Budhu, K. Holroyd, D. Balaban, W.-Y.W. Yau, C. Doughty, E. Miyawaki, H. Rennke, and A. Amato

e1088 Pearls & Oysters: Number, Weaker, and Dizzier Due to Transthyretin Amyloidosis After 2 Liver Transplants
A.J. Yerevanian and F. Shu

e1092 Teaching Neuromages: The Motor Band Sign in Amyotrophic Lateral Sclerosis
J. Budhu, J. Rosenthal, E. Williams, and T. Milligan

e1094 Teaching Video Neuromages: Ictal Unilateral Eye Blinking in Temporal Lobe Seizures: An Illustrative Video Case
E. Raimondo, R. McKinney, K. Mason, and L. Bartolini

Disputes & Debates: Editors’ Choice

349 Editors’ Note: Asymptomatic Optic Nerve Lesions: An Underestimated Cause of Silent Retinal Atrophy in MS
A. Ganesh

349 Editor Response: Asymptomatic Optic Nerve Lesions: An Underestimated Cause of Silent Retinal Atrophy in MS
S. Galetta

350 Author Response: Asymptomatic Optic Nerve Lesions: An Underestimated Cause of Silent Retinal Atrophy in MS
O. Outteryck and X. Leclerc

351 Editors’ Note: Optical Coherence Tomography for Detection of Asymptomatic Optic Nerve Lesions in Clinically Isolated Syndrome
A. Ganesh and S. Galetta

351 Reader Response: Optical Coherence Tomography for Detection of Asymptomatic Optic Nerve Lesions in Clinically Isolated Syndrome
K. Shubhakaran

352 Author Response: Optical Coherence Tomography for Detection of Asymptomatic Optic Nerve Lesions in Clinically Isolated Syndrome
O. Outteryck
