NOTICE OF RETIREMENT

Retirement of Guidelines

The recommendations and conclusions in the following 78 guidelines are no longer considered valid and are no longer supported by the American Academy of Neurology. Retired guidelines should be used for historical reference only. Please see AAN current guidelines here: https://www.aan.com/policy-and-guidelines/guidelines/.

Neurology® Published Ahead of Print articles have been peer reviewed and accepted for publication. This manuscript will be published in its final form after copyediting, page composition, and review of proofs. Errors that could affect the content may be corrected during these processes.
Title

Assessment: Intensive EEG/video monitoring for epilepsy

Assessment: EEG brain mapping

Assessment: Thermography in neurologic practice

Interim assessment: Carotid endarterectomy

Assessment: Transcranial Doppler

Practice guidelines: Neurologic evaluation

The Clinical Usefulness of Botulinum Toxin-A in Treating Neurologic Disorders

Intraoperative Neurophysiology

Assessment: Generic substitution for antiepileptic medication

Assessment: Positron emission tomography

Magnetoecephalography (MEG)

Techniques Associated with the Diagnosis and Management of Sleep Disorders

Assessment: DTP vaccination

Assessment: Posturography

Practice parameters: Initial therapy of Parkinson's disease (Summary statement*)

Practice parameter for electrodiagnostic studies in carpal tunnel syndrome (Summary statement)

Practice parameter for carpal tunnel syndrome (Summary statement)

Melodic Intonation Therapy
Practice parameters: Magnetic resonance imaging in the evaluation of low back syndrome

(Summary statement)

Practice parameter: The utility of neuroimaging in the evaluation of headache in patients with normal neurologic examinations (Summary statement)

Practice advisory on selection of patients with multiple sclerosis for treatment with Betaseron

Practice parameter for diagnosis and evaluation of dementia (Summary statement)

Safety and Efficiency of Ergotamine Tartrate and Dihydroergotamine in the Treatment of Migraine and Status Migrainosus

Assessment and Management of Patients in the Persistent Vegetative State

Determining Brain Death in Adults

Assessment: Neurological evaluation of male sexual dysfunction

Assessment of brain SPECT

Clinical Autonomic Testing

Assessment: Electronystagmography

Practice Parameter: Neuroimaging in the emergency patient presenting with seizure--Summary Statement

Assessment: Neuropsychological testing of adults: Considerations for neurologists

Practice Parameter: A guideline for discontinuing antiepileptic drugs in seizure-free patients--Summary Statement

Thrombolytic Therapy for Acute Ischemic Stroke

Assessment of plasmapheresis

Practice Parameter: Genetic testing alert

Practice Parameter: The management of concussion in sports
Silicone Breast Implants and Neurologic Disorders

Assessment of Digital EEG, Quantitative EEG, and EEG Brain Mapping

Assessment of vagus nerve stimulation for epilepsy

Practice advisory on the treatment of amyotrophic lateral sclerosis with riluzole

Assessment: Dermatomal somatosensory evoked potentials

Evaluation and Management of Intracranial Mass Lesions in AIDS

Stroke Prevention in Patients with Nonvalvular Atrial Fibrillation

Practice parameter: Management issues for women with epilepsy (summary statement)

Electrodiagnostic Studies in Ulnar Neuropathy at the Elbow

Practice parameter: The care of the patient with amyotrophic lateral sclerosis (an evidence-based review)

Neurologic Risk of Immunization

The Relationship of MS to Physical Trauma and Psychological Stress

Reassessment: Vagus nerve stimulation for epilepsy

Anticonvulsant Prophylaxis in Patients with Newly Diagnosed Brain Tumors

Practice parameter: The role of corticosteroids in the management of acute monosymptomatic optic neuritis

Practice parameter: Risk of driving and Alzheimer’s disease (an evidence-based review)

Thymectomy for Autoimmune Myasthenia Gravis

Clinical utility of surface EMG

Practice parameter: Evidence-based guidelines for migraine headache (an evidence-based review)

Practice parameter: Steroids, acyclovir, and surgery for Bell’s palsy (an evidence-based
Management of Dementia

Practice parameter: Early detection of dementia: Mild cognitive impairment (an evidence-based review)

Electrodiagnostic Studies in Carpal Tunnel Syndrome

Anticoagulants and Antiplatelet Agents in Acute Ischemic Stroke

Evaluation of the Child with Global Developmental Delay

Utility of MRI in Suspected MS

The use of mitoxantrone (Novantrone) for the treatment of multiple sclerosis

Efficacy and Tolerability of the New Antiepileptic Drugs I: Treatment of New Onset Epilepsy

Efficacy and Tolerability of the New Antiepileptic Drugs II: Treatment of Refractory Epilepsy

Pharmacological Treatment of Migraine Headache in Children and Adolescents

Therapies for Essential Tremor

Addendum to Assessment: Prevention of Post-Lumbar Puncture Headaches

Diagnosis and Prognosis of New Onset Parkinson Disease

Botulinum Neurotoxin in the Treatment of Autonomic Disorders and Pain

Botulinum Neurotoxin for the Treatment of Movement Disorders

Evaluation of Distal Symmetric Polyneuropathy: Role of Autonomic Testing, Nerve Biopsy, and Skin Biopsy

Treatment of Nonmotor Symptoms of Parkinson Disease

Evidence Report: The efficacy and safety of mitoxantrone (Novantrone) in the treatment of multiple sclerosis
The Role of Diffusion and Perfusion MRI for the Diagnosis of Acute Ischemic Stroke

Intravenous Immunoglobulin in the Treatment of Neuromuscular Disorders

Treatment of Parenchymal Neurocysticercosis

Practice Advisory: Recurrent Stroke with Patent Foramen Ovale (Update of Practice Parameter)
Retirement of Guidelines
