CORRECTION

Long-term Dietary Flavonoid Intake and Subjective Cognitive Decline in US Men and Women

In the Research Article “Long-term Dietary Flavonoid Intake and Subjective Cognitive Decline in US Men and Women” by Yeh et al.1, there were errors in the labels of Figure 4. The y-axis for both the NHS and HPFS graphs should have been labeled “OR (95% CI),” and the middle sections should have been labeled “Average intake.” For the NHS graph, the x-axis should read “1984–2006” under Average intake and “1984–1990” under Mutually adjusted intake. See the corrected figure below. The publisher regrets the errors.

Neurology® Published Ahead of Print articles have been peer reviewed and accepted for publication. This manuscript will be published in its final form after copyediting, page composition, and review of proofs. Errors that could affect the content may be corrected during these processes.
