CORRECTION
Patient-Reported Symptom Severity in a Nationwide Myasthenia Gravis Cohort: Cross-sectional Analysis of the Swedish GEMG Study

In the Research Article “Patient-Reported Symptom Severity in a Nationwide Myasthenia Gravis Cohort: Cross-sectional Analysis of the Swedish GEMG Study” by Petersson et al., the third sentence of the third paragraph of the Results section should read: “Using a multivariate regression model, comparing patients with severe generalized disease to those without, we sought to identify factors correlating with higher MG-ADL score (Table 3).” The publisher regrets the error.
