CORRECTION

Association of CSF, Plasma, and Imaging Markers of Neurodegeneration With Clinical Progression in People With Subjective Cognitive Decline

In the Research Article “Association of CSF, Plasma, and Imaging Markers of Neurodegeneration With Clinical Progression in People With Subjective Cognitive Decline” by Ebenau et al.\(^1\), the title should be “Associations of CSF, Blood, and Imaging Markers of Neurodegeneration With Clinical Progression in People With Subjective Cognitive Decline.”

Additionally, the first sentence of the fifth paragraph under Biomarkers should read as follows: “Non-fasted serum samples (n=296 [72%]) were obtained through venipuncture and centrifuged on average within 2 hours from collection, at 1800g, 10 minutes at room temperature, before immediate storage at -80°C until analysis.”

The authors regret the errors.
